Gentlemen:

Referring to your letter of the 15th instant, requesting an extension of time until the middle of January, 1921, to file report of your operations in Prince William Sound, Alaska, you are advised that the Bureau will grant such an extension if it is absolutely essential to proper presentation of your reports. It had been hoped, however, to close up the statistics much earlier this season than heretofore, hence if you can possibly do so, please get the reports in at a much earlier date.

Very truly yours,

E. M. Smith

Commissioner.
